

Build our community by supporting local businesses!

Have you taken a close look at South Street West lately? A lot has changed.

With new sidewalks, pedestrian lighting, storefront facades, and businesses, South Street West is now a safer, more attractive, and more convenient place to shop, work, and live.

South Street West and our surrounding neighborhood is undergoing a tremendous transformation that is benefiting long-time and brand new residents and business owners. Help keep development balanced by supporting member businesses in the South Street West Business Association (SSWBA). We are working with SOSNA, City agencies, and community groups to keep this momentum going.
